

## Contact blocks

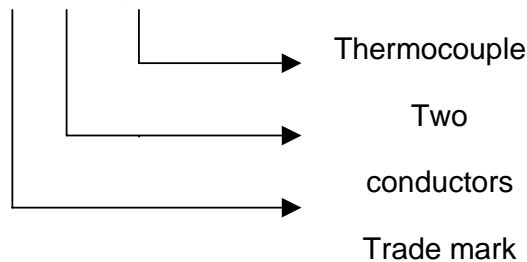

FERROTRON Technologies GmbH supplies all common contact blocks for measurement lances and sub lance devices.

For combined oxygen and temperature measurement and for temperature only measurement, FERROTRON offers standard contact blocks of the versions type S/R and type B. The contact blocks are available with two, three or four solid wires.

The product name consists of the following:

FOX<sup>™</sup> oxygen activity measurement probe 2K Pt10 Rh-Pt

For sub lance devices we offer two standard contact blocks for type S (Pt10) and type B thermocouples. Both contact blocks are suitable for combined oxygen and temperature measurement or for liquid measurement.

FERROTRON<sup>®</sup> is a registered trademark of Minerals Technologies Inc. or its subsidiaries in the United States and Germany.

Information contained herein is believed to be accurate and reliable. However, no responsibility is assumed by *Ferrotron Technologies GmbH* for its use. Technical data are subject to change without notice.
